Tuesday, February 23, 2010

West Chester, Ohio--Rite Track, Inc., a semiconductor equipment supplier based in West Chester, Ohio has signed an agreement to act as the sole distributor for Expertech diffusion furnace products, parts, and services in Asia. Expertech has a long history of providing quality new, remanufactured, or certified used horizontal and vertical furnace systems to the semiconductor industry. More recently, Expertech became the sole authorized, licensed manufacturer for the popular Aviza VTR 6000 and Aviza VTR 7000 series furnace systems. Rite Track plans to manage the complementary diffusion furnace business through its existing manufacturing and distribution center in Singapore. While specific terms of this distributor agreement were not disclosed, it does leave open a path for future expansion to cover other regions.

"Expertech has a product line-up ranging from SVG to Aviza furnace systems that have been the mainstay of the industry. I am thrilled that we were able to reach an agreement to represent Expertech in Asia," stated Tim Hayden, Rite Track's CEO and President. "In the end, the deal just made great sense to both sides. With our infrastructure in Asia, we are suppliers to most of the same customers."

Expertech Vice President & General Manager, Mark Cooper commented, "Rite Track offers us a clear path to better serve our Asian customer's needs real-time. Their logistics network is first class and provides a real advantage to customers that want quality parts and service support. We are looking forward to a long and fruitful relationship with Rite Track as our distributor."

Asian customers interested in Expertech products may contact the Rite Track Asia office directly at +65-64843421 or via email at [expertech-asia@ritetrack.com](mailto:expertech-asia@ritetrack.com).

Established in 1993, Rite Track is a supplier of customized remanufactured track systems, focused on extending the value of production equipment for the semiconductor, thin film head, solar cell, and MEMS industries. Based in West Chester, Ohio, USA, Rite Track is an authorized TEL Mark parts supplier, a licensed TEL Mark SW distributor and has had an agreement with Tokyo Electron covering TEL Mark Vz/7/8 systems since 2003. Rite Track is also the SVG 8X and 9X track system product line owner, providing new, remanufactured, refurbished track systems worldwide. Through Rite Track's global logistics network, technical & spare parts support, relocation services, upgrade/enhancement kits, and custom engineering service are available for all of their products.
