

# ATTENTION MANUFACTURERS:

## *Do you want to hire students eager to work and ready to gain valuable experience?*

We're partnering with area schools to identify high school students who have studied and developed manufacturing-related skills. Now you have the opportunity to place them in your company through an internship program offered by the Ohio Manufacturing Extension Partnership (MEP).

**The Ohio MEP High School Internship Program** assists manufacturers with their workforce needs and provides financial assistance for hiring local high school and career technical students as interns. The program is available to manufacturers hosting high school interns between April 1, 2020 and September 30, 2021.

### ***What advantage does having student interns offer?***

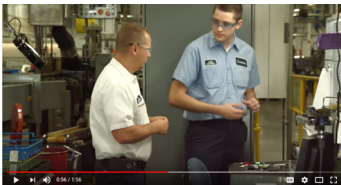

*Contribute to developing your future manufacturing workforce.*

*Connect with your schools to ensure that students are work-ready.*

*Get cash-back for 50% of student wages up to \$1,500 per student.*

***Last year, 80% of the interns placed across Ohio were employed at the end of their internship!***

See how two companies benefited from the Ohio MEP High School Internship Program in these two success stories:

<http://bit.ly/EngineticsSuccess>

### ***How does the program work?***

1. We help you work with your local schools to select students for internship positions in manufacturing operations.
2. Together, we'll design a work-based learning experience that is school-approved and complies with state requirements.
3. Guide the student(s) through their internship experience.
4. Receive a reimbursement of 50% of student wages (not to exceed \$1,500 reimbursed).

***Let the Ohio MEP High School Internship Program work for you!***
